* 2005: “ASEAN-Japan Transport Logistics Improvement Plan” was adopted at 3rd ATM+J.  
* 2006-2008: Capacity building (including seminars and workshops) was implemented ten times in eight ASEAN countries.  
* 2007: "the Guideline for ASEAN-Japan Transport Logistics Capacity Building (AJ-TLCB)” was endorsed at 5th ATM+J.  
* 2009-2012: Policy dialogues and Workshops were held ten times in eight ASEAN countries.  
> 2013: Policy dialogues/Workshops will be held in Indonesia and Thailand  
> Expert Group Meeting on Logistics would be the platform for the implementation of ASEAN Green Logistics Projects.  
> [Progress: Ongoing]                                                                                                                                  | [Evaluation: Continue] |
* 2011: “17 Priority ASEAN Network Ports” was approved at 21st ASEAN Maritime Transport Working Group Meeting (MTWG).  
> MTWG and Japan will continue to follow progress of the projects.  
> [Progress: Ongoing]                                                                                                                                  | [Evaluation: Continue] |
